COVERAGE LIMITS & EXCLUSIONS

The FPC Premium Marine Protection service contract specifies the parts within each component group that are covered. Also, coverage is subject to deductibles, limits and exclusions. The contract covers repairs only of covered parts and only when they suffer a breakdown as defined in the contract. Under some circumstances, a breakdown of a covered part may not be covered (for example, failure due to misuse or lack of proper maintenance or when a non-covered part is what caused the covered part to fail). Also, the exclusions contain a list of parts not covered, some of which may be associated with a covered part (for example, thermostats, fuses and ropes). Please see the coverage booklet for details.
